Deary School
Grades: 6-12
Updated Information 8/12/20

The following document is a living document and will be updated as needed. For clarification or concerns, please contact Kendrick Jared at kjared@sd288.k12.id.us or by phone from 7:30 - 4:00 Monday through Friday at 208-877-1151.

Deary High School
Starting Wednesday August 26th, classes will resume as scheduled. This will include our standard 7 class rotation with 4 minutes between classes. The school will open each day at 8 am which is 30 minutes later than in previous years. We will continue to have an open campus for high school students during lunch and before school.

Registration is on Monday August 17th in the cafeteria. Please bring a face covering in case we are unable to be socially distant.

Scheduled times for registration:
Seniors - 9AM
Juniors - 10AM
Sophomores 11AM
Freshman 12PM

Due to limited staff and available rooms, the majority of classes will not be split. We will however split a select few classes to help protect staff and students.

Deary Middle School
We are excited to announce that the 6th grade will be bumped up to join the 7th and 8th grade to form a middle school. This move also brings up two elementary teachers, Mrs. Keen and Mrs. Heath, to the middle school. The school will open each day at 8 am which is 30 minutes later than in previous years. Middle school students do not have an open campus and once they arrive at school they must remain at school until the school day ends at 3:15.

Middle school students do not have registration and will be given their class schedule on the first day of school.

Transportation
Buses will run as normal and will require face coverings unless students can be socially distant on the buses.
Face Coverings
At this time, the School Board’s Resolution to Reopen will require face coverings when students and staff are not able to be socially distant.

Several factors will determine if face coverings will be required in the classroom including the size of the classroom and the number of students in the class. We anticipate that we can socially distance our students in roughly half of the classes and will therefore not be required to wear face coverings during those times. The teacher will work with administration to determine if a classroom is able to be socially distant and will not require face coverings during instruction.

We encourage students to bring their own face coverings but will provide students with face coverings if they do not have one.

Sick Students
As stated in the School Board’s Resolution, students who are showing symptoms of an illness will not be allowed to attend school in person. We will have virtual options available where they can still attend school during an illness.

Virtual School Option
Students who are at high risk who are not able to attend in person instruction and sick students will have the option to continue their education in the Whitepine School District using technology. This will include using an electronic device that will allow students to attend the majority of their normal classes with a camera and microphone. Some elective classes will not have this option such as PE or Welding. If the household does not have wifi, the school will need to be informed and will attempt to provide the internet. Planning and preparation are in the process to make this as smooth as possible but we do anticipate technological struggles in the early stages of the virtual school option.
Attendance & Semester Test Policy
Students attending classes virtually will be considered in attendance. They will need to be on the device and ready to engage when class begins. Packets and recorded videos will not be sent out. Students will be expected to engage with their classmates and teachers to be considered present and not absent. Flexibility will be given when technology issues occur, but communication is imperative or students will be marked absent. More information will be available after registration.

At this time, we are working on amending our semester test policy and will inform students of the changes when school begins.

Meal Times
- Breakfast will be available between 8 - 8:20. We believe we will be able to be socially distant during breakfast. Rules may change depending on available space.
- Snack is also available between 10:09 - 10:16 for students who were not able to eat breakfast. We believe we will be able to be socially distant during this time. Rules may change depending on available space.
- Lunchtime will be normal but will have some minimal changes.
  - A staggered release will occur.
  - Students will not be able to serve themselves at the salad and fruit bar. The middle school will eat in the cafeteria.
  - High school students will be asked to eat outside when the weather provides, in a monitored classroom selected by administration, in the lobby or will be allowed to leave campus.
  - Rules may change depending on available space.

Athletics
At this time, all athletics are moving forward with their season. Face coverings are not required for practice or games. Fans are encouraged to wear face coverings but are not required to wear them at Deary events. Other schools will have face covering requirements and fans should bring a face covering to away games in case they are required.

Riding with parents is encouraged to and from games. Athletes will be required to wear face covering on the bus unless they can be socially distant.

Additional
Details regarding shared supplies, cleaning, hand sanitizing, campus restrictions for patrons, and more can be found in the School Reopening Plan on the school website.
